Exam Preparation

You may also visit prepare.CanadaDiagnostics.ca

ULTRASOUND

BLADDER, PELVIS OR PREGNANCY UNDER 28 WEEKS

The exam requires a full bladder. DRINK AND FINISH 1 liter (32 oz.) of water 1 hour prior to appointment time. DO NOT empty bladder until after the examination. If your bladder is not full, the examination may have to be rescheduled. You may eat your regular meals and/or snack prior to the exam.

BIOPHYSICAL PROFILE OR PREGNANCY 28 WEEKS AND OVER

This exam requires a partially full bladder. DRINK AND FINISH 500 ml (16 oz.) of water 45 minutes prior to appointment time. DO NOT empty bladder until after the examination. If your bladder is not full, the examination may have to be rescheduled. Eat regular meals and/or have a snack 30 minutes prior to appointment time.

ABDOMEN

DO NOT eat, drink or consume anything by mouth 8 hours prior to examination. NO water, other liquids, chewing gum, lozenges or food 8 hours before exam. No smoking 4 hours prior to exam.

ABDOMEN AND PELVIS

DRINK AND FINISH a minimum of 1 liter (32 oz.) of water 1 hour prior to appointment time. You must have a full bladder for this exam. DO NOT eat, drink or consume anything else by mouth (other than water) for 8 hours prior to examination: no other liquids, chewing gum, lozenges or food 8 hours before exam. No smoking 4 hours prior to exam.

MAMMOGRAPHY

DO NOT wear deodorant or body powder the day of the exam. If you have premenstrual tenderness in your breasts, it is advisable to schedule your appointment after it has subsided. Also AVOID caffeine intake beginning 2 days prior to your exam.

BONE MINERAL DENSITOMETRY

DO NOT take any MULTIVITAMINS, CALCIUM, or IRON BEFORE your exam. You may take them AFTER your exam.

PAIN MANAGEMENT INJECTIONS

It is not recommended that you operate a motor vehicle after your procedure. Please arrange for a driver or other transportation. For nerve root block or epidural injections, patients MUST have a driver present or other transportation. For spine injections, please avoid chewing gum or carbonated drinks the day of the exam.

KID'S IMAGING

Please use Kid's Imaging requisition form. For detailed instructions please visit: prepare.CanadaDiagnostics.ca

FLOURSCOPY

UPPER GI or SMALL BOWEL FOLLOW THROUGH or ABDOMINAL U/S + UGI

This exam may not be possible if there is a chance of pregnancy and may need to be deferred to a later date. DO NOT eat, drink, or consume anything by mouth 12 hours prior to examination (ie. No water or liquids, chewing gum, throat lozenges or food 12 hours before exam. No smoking 4 hours prior to exam). If you are diabetic please consult your doctor.

X-RAY

This exam may not be possible if there is a chance of pregnancy and may need to be deferred to a later date. It is recommended that you dress comfortably. Please avoid clothing that has zippers, snaps, buttons and/or beading near the area to be scanned.

MRI

ABDOMINAL or PELVIC

24 hours prior to your exam have a diet consisting of only clear fluids (such as soup broth and clear juices). NO solid food. After midnight the day of your exam you may only have small sips of water. Take a light laxative the night before your exam. You may take your medications. DO NOT chew gum, consume coffee or carbonated drinks (pop). If you are diabetic, please consult your doctor.

PROSTATE EXAM PREPARATION

Have a light breakfast the day before the exam, have only clear fluids (such as soup broth or clear juices, do not take any carbonated beverages or coffee) after this breakfast and for the remainder of the day, do not take any solid foods until after the exam. Take a light laxative the night before the exam. After midnight have only sips of water. You may take your medications. A bowel movement is REQUIRED the morning of the exam, there should be NO remaining fecal matter. If you are diabetic, please consult your doctor.
