Exam Preparation

You may also visit prepare.CanadaDiagnostics.ca

ULTRASOUND

ABDOMEN

0-2 years:

Omit the last feeding (4 hours prior to exam).

2+ years:

Nothing to eat or drink after midnight prior to the examination. If necessary, a small glass of clear fluid may be given. It is best to book this exam as early in the morning as possible. No milk/milk products or carbonated beverages.

RENAL AND BLADDER OR PELVIS

0-2 years:

No preparation is required, however be prepared to spend time at the clinic as the ultrasound technologist may have to wait until the bladder fills to do the exam. A drink may be given on arrival by the ultrasound technologist.

2+ years:

Full bladder is required. Drink two glasses of water and/or apple juice (500 ml) 1 hour prior to exam. If the bladder is not full, the exam may need to be rescheduled.

COMBINED ABDOMEN & PELVIS

0-2 years:

Drink water and/or apple juice only 4 hours prior to examination. No food, milk or carbonated beverages.

2+ years:

From midnight prior to exam, clear fluids only. No food, milk or carbonated beverages. A full bladder is required. Drink two glasses of water and/or apple juice (500 ml) 1 hour prior to exam.

WALK-IN X-RAY

It is recommended that you dress comfortably. Please avoid clothing that has zippers, snaps, buttons and/or beading near the area to be scanned.

FLUOROSCOPY

VOIDING CYSTOURETHROGRAM AND RETROGRADE URETHROGRAM

No preparation. Your child can eat and drink as usual.

NOTE: Children with a bladder (urinary tract) infection must complete antibiotics before the exam.

BARIUM ENEMA

NOTE: You may buy pediatric Fleet Enema and Citro-Mag in drug stores. Follow product instructions.

Single contrast enema for Hirschsprung's disease or chronic constipation:

- No laxatives, suppositories, or rectal exams for 5 days before the exam.
- Parent will be told after exam if the child has to come back the next day for a 24-hour post-enema x-ray.

Single contrast enema for everything other than above:

No preparation.

CALGARY

Location
