3 Assessment Review patient and augment treatment plan where appropriate.

4 Repeat Repeat all Instructions No. of Times MD Initials

5 Peripheral Procedures

Steroid unless otherwise indicated. **Most third party insurers offer reimbursement for injectables.**

Therapy Choice Tissue: Steroid SportVis™* Prolotherapy Platelet Rich Plasma (PRP)* Botox®*
All can be supplied by CDC Joints: Steroid Monovisc®* Cingal* Durolane* Synolis VA* PRP*

Shoulder

- Shoulder (Not specified) R L
- Subacromial Bursa R L
- Glenohumeral Joint R L
- Hydrodilatation for adhesive capsule R L
- AC Joint R L
- Biceps Tendon (Long head) R L
- Tendon Calcification (>5 mm) R L
- Suprascapular Nerve Block R L

Elbow

- Elbow Joint R L
- Lateral Epicondylitis R L
- Medial Epicondylitis R L
- Olecranon Bursa R L

Wrist and Hand

- Radiocarpal Joint R L
- 1st CMC Joint R L
- Carpal Tunnel R L
- DeQuervain's Tenosynovitis R L
- Trigger Finger R L
- Ganglion Cyst R L

Other Joint/Tendon/Bursa

Knee

- Knee Joint R L
- Baker's Cyst R L
- Radiofrequency Neurotomy (RFN) R L
- Stage 1: Genicular Nerve Block Test
- Stage 2: RFN if positive

Hip and Pelvis

- Hip Joint R L
- Greater Trochanteric Bursa R L
- Gluteus Tendon (Prolo, SportVis™*, PRP*) R L
- Iliopsoas Bursa R L
- Ischial Bursa R L
- Piriformis Syndrome R L
- Meralgia Paresthetica R L
- Symphysis Pubis

Ankle and Foot

- Ankle Joint (Tibiotalar) R L
- Subtalar Joint R L
- 1st MTP Joint R L
- Achilles Tendon (Prolo, SportVis™*, PRP*) R L
- Retrocalcaneal Bursa R L
- Plantar Fascia R L
- Ganglion Cyst R L
- Morton's Neuroma R L

5 Nuclear Medicine Pacific Place Ph: 403.215.2900

Bone Scan with SPECT/CT (As needed)
Specify Area in Clinical History

6 Spinal Procedures

Lumbar Facets & Epidurals

- Stage 1:
Facet Joint Injections L1/L2 R L L1 Lumbar
- Stage 2a:
Branch Block Test** L2/L3 R L L2 Selective
- Stage 2b:
Radiofrequency L3/L4 R L L3 Nerve
- Neurotomy L4/L5 R L L4 Root
- L5/S1 R L L5 Block
- SI Joint R L SI
- Interlaminar L3/L4 L5/S1
- ESI L4/L5 Caudal ESI
- Lumbar Intradiscal Steroid (Modic I changes on MRI)
- Lumbar Intradiscal PRP (Annular tear on MRI)
- Pars Interarticularis _____ R L
- Coccyx
- Thoracic Facet Joint _____ R L

Cervical Facets & Epidurals

- Stage 1:
Facet Joint Injection C2/C3 R L Cervical
- Stage 2a:
Branch Block Test** C3/C4 R L Epidural
- Stage 2b:
Radiofrequency C5/C6 R L Steroid
- Neurotomy C6/C7 R L Injection
- C7/T1 R L (Transfacet)

Headache

- 3rd Occipital Nerve R L
- Greater & Lesser Occipital Nerves R L
- Botox® for Chronic Migraine*
- TMJ Botox R L
- TMJ Joint Injection R L
- Sphenopalatine Ganglion Block (Bilateral)

Stellate Ganglion Block

*Not covered by Alberta Health. **Specifically used for radiofrequency neurotomy.

Exam Preparation

You may also visit prepare.CanadaDiagnostics.ca

Continue to take all regular medications as prescribed by your doctor.

Please be aware that your doctor may need to prescribe medication changes prior to your procedure if you are on blood thinners. You must inform us of any blood thinner medications you are taking at the time of booking.

DO NOT chew gum or drink carbonated beverages on the day of your spine or lower back procedure as this may interfere with image quality due to excess bowel gas.

If possible, do not take any extra pain medications on the day of your exam. This allows us to better assess your response to our treatment.

If your doctor has prescribed a medication for us to inject, please call us as we can likely provide it to you directly.

Gowns are provided for your comfort. If you prefer to wear your own clothing and full undergarments, be advised that your clothing could be accidentally stained by disinfectant.

Once treatment is complete, a technologist will ask that you remain in the waiting area for 10 minutes and will re-evaluate your pain level.

Please refrain from any heavy lifting or strenuous activities for at least 24 hours following your treatment, or as prescribed by your doctor.

Serious complications are extremely rare but can happen. It may be normal to experience some mildly increased pain and discomfort the day after your procedure.

However, if you suffer steadily worsening pain, experience fever/chills or any sign of infection, develop new numbness or weakening in your limbs, or lose normal bladder/bowel control, contact your doctor immediately.

If your doctor is unavailable, proceed directly to the nearest hospital Emergency Department. Failure to do so may result in permanent disability.

All procedures have the potential to affect your ability to operate a motor vehicle.

Canada Diagnostic Centres recommends that you arrange transportation to and from the exam.

Special instructions for your cervical procedure, nerve root block, epidural or radiofrequency neurotomy

You must always be accompanied by an adult to and from your appointment. You must arrange for transportation to and from your appointment. Failure to comply with the instructions above will result in your appointment being rescheduled.
